Friends of the Earth Middle East (FoEME), the Global Nature Fund (GNF) and photographers Paolo Pellegrin and Eddie Gerald are pleased to present the Crossing the Jordan River Photography Exhibition. The exhibition brings together a series of stark images of the Jordan Valley, highlighting its beauty, its heritage and its role in today's conflict, contrasting the River's current deteriorating situation with the magnificence of the landscape.

This exhibition, part of FoEME's Jordan River Rehabilitation Project is made possible by the Swedish International Development Cooperation Agency (SIDA), the Richard and Rhoda Goldman Fund, the Global Nature Fund/ Ursula Merz Foundation and the Osprey Foundation with additional support for FoEME's SWIM-JR Project from the European Commission's Sustainable Water Integrated Management Programme.
