I would like to congratulate the pioneering environmental Organization “Friends of the Earth Middle East (FoEME)” for winning the Onassis Prize for the Protection of the Environment.

It is a great honour for your Organization, as FoEME is also the recipient of the first Onassis Prize for the Protection of the Environment.

As the Onassis Foundation also stated, your work towards a sustainable environment is significant worldwide and involves actively people of different nationalities and thus advances peaceful living and harmonious cooperation towards a common goal.

I hope to continue promoting sustainable development in the region and I am at your disposal for closer and effective cooperation.

Best Regards,
