**GWN Community: Gilboa**

**Name of project: Ancient Wine Press Restoration**

Environmental & Educational Benefits:
- Participants learn to look and see the environment for themselves, distinguishing the different layers and recognizing the human activity that took place there. Such contact between participants and their environment allows the construction of identity, responsibility and community collaboration. This creates a sense of environmental and historical heritage.

Date of Construction: 2010-2012

Team: Water Trustees & FoEME.

Materials: Tree off cuts, recycled wood, stone, ceramic signs.

Description:
- The ancient wine press was excavated, exposed and cleaned
- Four seating locations were constructed.
- This location is part of the Gilboa Neighbors Path.
